

Pre-event survey

PRO TIP

We highly recommend survey your members before and after events. This will help your group members feel included and heard, will increase the value of your events, and will help you measure satisfaction with your events over time. Here are some suggested survey questions to chose from.

How did you hear about this event?

What are you most excited about?

Why did you choose to attend this event?

Do you have special accommodations you would like us to be aware of?

Was there any event information that was difficult for you to find?

Which communication platform works for you the best to get the event information?

SURVEY TOOLS

- Google Forms
- Typeform
- Survey Monkey
